

# creative Re-surfacing

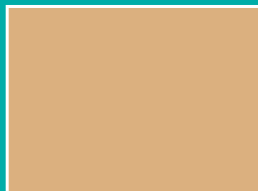

There are 20 colours available. These range from soft hues like Sandy Beige and Sandstone or traditional tones like Terracotta or Brick Red. The colours can be used in a combination of ways to complement each other and create different effects. Examples of possible colour combinations and effects can be seen at a Duratex Display Centre or discussed with your applicator.

## Important Notice

Duratex re-surfacing colours shown in this brochure have been reproduced as close as modern printing techniques allow. It is intended for use as a guide only. As the ingredients within this product are derived from natural sources, colours may vary from batch to batch. Variations in colour and shading may also occur, depending on the job conditions, chosen texture and finishing practices employed by your concrete contractor. We recommend you confirm your colour and texture with your Duratex concrete contractor.
