

Eco-Shroud

Use the Blastrac® ECO-Shroud as part of the dust containment system on hand grinders, sanders or polishers to help reduce airborne dust and particulates. The ECO-Shroud facilitates a cleaner and safer work environment when grinding, planing, or removing coatings from concrete. Convertible ECO-Shroud option has a hinged hood, ideal for close-up work right next to walls and other vertical protrusions.

Easy to install with no tools required, the ECOShroud includes five inserts to adapt to the most Popular 7" and 9" grinders on the market. The ECO-Shroud is constructed from abrasive resistant materials to ensure a long-life.

- Design: utilises cyclone dust-extraction technology
- Installation: attaches easily with no-tools
- Material: durable recycled & virgin vinyl, reinforced with steel ring embedded in perimeter
- Adaptable: Included insert rings allows ECO-Shroud to fit most models of these popular grinders:

- Bosch
- Dewalt
- Hilti
- Hitachi
- Makita
- Metabo
- Milwaukee

Always wear respirator protection, appropriate for the application, as specified by OSHA regulations and your employer. Never operate or maintain equipment before reading and understanding the instructions for operation and maintenance. Obey all safety signs and instructions while operating or maintaining equipment.
