

Delay coating for Hydrotite hydrophilic waterstop

Description

Delay Coating is a brush or spray applied material used as a coating to prevent any premature swelling of Hydrotite waterstop in damp or wet conditions. Hydrotite is already supplied with a delay coating but if rain or wet conditions are going to be anticipated applying another coat of Delay Coating can help delay any premature expansion of the waterstop for up to 2 days.

Application

Surfaces to where the Delay Coating is to be applied should be clean and dry

Delay coating should be applied by brush or spray to all three exposed sides of the waterstop profile after it has been installed.

Clean Up

Clean any brushes, spray equipment, tools etc immediately after use with Solvent 10.

Packaging

2200356	1 Litre cans
2200357	4 Litre cans

Coverage

Approximately 40 mtrs of Hydrotite can be treated per 1 litre can.

Storage

Twelve months in original container stored in cool, dry conditions.

Delay Coating

Important notice

A Safety Data Sheet (SDS) and Technical Data Sheet (TDS) are available from the Parchem website or upon request from the nearest Parchem sales office. Read the SDS and TDS carefully prior to use as application or performance data may change from time to time. In emergency, contact any Poisons Information Centre (phone 13 11 26 within Australia) or a doctor for advice.

Product disclaimer

This Technical Data Sheet (TDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this TDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Parchem does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether or not in accordance with any advice, specification, recommendation or information given by it.
