

# Emer-Clad Fabric Reinforcing Tape

Technical  
Data  
Sheet

## Non woven reinforcement fabric

### Uses

Emer-Clad Fabric Reinforcing Tape is a non woven fabric designed for use with liquid membrane and high build coating products for enhancing reinforcement, tensile strength and uniform layers in liquid membrane applications. This fabric has been designed to easily wet into high build liquid membranes, preventing the creasing and wrinkle phenomena often found with general glass fibre and other reinforcement matting materials. Suitable for both vertical and horizontal applications, the tape displays outstanding workability and provides excellent rupture and rot resistance.

### Advantages

- Excellent resistance to detergents, bleaches, chemicals and water
- Ease of use with liquid membranes, preventing wrinkling and excessive creasing
- Rot resistant, suitable in wet areas, external areas, underground and immersed areas
- Durable when reinforced within liquid coating
- Conforms well to substrate surfaces, returns and abutments
- Light weight
- Material weight – 40g/m<sup>2</sup>

### Technical Support

Parchem offers a comprehensive range of high performance, high quality repair, maintenance and construction products. In addition, the company offers a technical support package to specifiers, end-users and contractors, as well as on-site technical assistance.

## Application Instructions

### Application

- Product can be cut with scissors, knife or similar cutting tools
- Liquid coating is applied to substrate and while in a wet state embed fabric into position
- Do not allow liquid membrane to tack off or skin before embedding fabric
- Air pockets or creases formed to be removed with a flat spatula or brush
- Subsequent coats of the liquid membrane should ensure the total fabric is covered

### Supply

<b>Roll Length:</b>	50m
<b>Available Widths:</b>	100mm, 150mm, 190mm, 1.2 metre
<b>Product Codes:</b>	100 mm - FC000937-UNIT 150 mm - FC000938-UNIT 190 mm - FC000939-UNIT 1.2 metre - FC000940-UNIT

### Important notice

A Safety Data Sheet (SDS) and Technical Data Sheet (TDS) are available from the Parchem website or upon request from the nearest Parchem sales office. Read the SDS and TDS carefully prior to use as application or performance data may change from time to time. In emergency, contact any Poisons Information Centre (phone 13 11 26 within Australia) or a doctor for advice.

### Product disclaimer

This Technical Data Sheet (TDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this TDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Parchem does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether or not in accordance with any advice, specification, recommendation or information given by it.
