

Infosafe No™ LPT7L	Issue Date : March 2014	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FOSROC CONBEXTRA EPHT HARDENER**

Classified as hazardous

## 1. Identification

<b>GHS Product Identifier</b>	FOSROC CONBEXTRA EPHT HARDENER
<b>Company Name</b>	Parchem Construction Supplies Pty Ltd (ABN 80 069 961 968)
<b>Address</b>	7 Lucca Road Wyong NSW 2259 Australia
<b>Telephone/Fax Number</b>	Tel: 02 4350 5000 Fax: 02 4351 2024
<b>Emergency phone number</b>	1800 638 556 (available 24/7)
<b>Recommended use of the chemical and restrictions on use</b>	Hardener component of epoxy grout for high temperature applications.
<b>Other Information</b>	<p>This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since Parchem Construction Supplies Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace.</p> <p>If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company. Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.</p> <p style="text-align: center;"><a href="http://www.parchem.com.au">www.parchem.com.au</a></p>

## 2. Hazard Identification

<b>Classification of the substance or mixture</b>	<p>Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.</p> <p>Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)</p>
<b>Signal Word (s)</b>	<p>Classification:</p> <p>Acute Toxicity - Oral: Category 4          Eye Damage/Irritation: Category 1          Skin Corrosion/Irritation: Category 1          Sensitization - Skin: Category 1          STOT Single Exposure Category 3 (respiratory tract irritation)</p> <p>Danger</p>
<b>Hazard Statement (s)</b>	<p>H302 Harmful if swallowed.          H314 Causes severe skin burns and eye damage.          H317 May cause an allergic skin reaction.          H335 May cause respiratory irritation.</p>
<b>Pictogram (s)</b>	Corrosion, Exclamation mark, Environment

<b>Precautionary statement – Prevention</b>	<p>P260 Do not breathe fume/mist/vapours.          P264 Wash contaminated skin thoroughly after handling.          P270 Do not eat, drink or smoke when using this product.          P271 Use only outdoors or in a well-ventilated area.          P272 Contaminated work clothing should not be allowed out of the workplace.          P273 Avoid release to the environment.          P280 Wear protective gloves/protective clothing/eye protection/face protection.</p>
---	---

Infosafe No™ LPT7L	Issue Date : March 2014	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FOSROC CONBEXTRA EPHT HARDENER**

Classified as hazardous

<b>Precautionary statement – Response</b>	<p>P304+P340 IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.</p> <p>P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.</p> <p>P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</p> <p>P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.</p> <p>P310 Immediately call a POISON CENTER or doctor/physician.</p> <p>P363 Wash contaminated clothing before reuse.</p> <p>P391 Collect spillage.</p>
<b>Precautionary statement – Storage</b>	<p>P403+P233 Store in a well-ventilated place. Keep container tightly closed.</p> <p>P405 Store locked up.</p>
<b>Precautionary statement – Disposal</b>	<p>P501 Dispose of contents/container to an approved waste disposal plant.</p>
<b>Supplemental information</b>	<p>The information under this heading is not mandatory under WHS Regulations. It is provided as information on other GHS hazard classes and categories and/or environmental hazards that are outside the scope of the WHS Regulations.</p> <p>H313 May be harmful in contact with skin.</p> <p>H411 Toxic to aquatic life with long lasting effects.</p>

### 3. Composition/information on ingredients

Chemical	liquid		
Characterization			
Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	Cyclohexanamine, 4,4'-methylenebis-	1761-71-3	100 %

### 4. First-aid measures

<b>Inhalation</b>	If inhaled, remove affected person from contaminated area. Apply artificial respiration if not breathing. Seek medical attention.
<b>Ingestion</b>	Do not induce vomiting. Wash out mouth thoroughly with water. Seek immediate medical attention.
<b>Skin</b>	Remove all contaminated clothing immediately. Wash gently and thoroughly with water and non-abrasive soap for 15 minutes. Ensure contaminated clothing is washed before re-use or discard. Seek immediate medical attention.
<b>Eye contact</b>	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.
<b>First Aid Facilities</b>	Eyewash, safety shower and normal washroom facilities.
<b>Advice to Doctor</b>	Treat symptomatically.
<b>Other Information</b>	For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

### 5. Fire-fighting measures

<b>Suitable extinguishing media</b>	Carbon dioxide, dry chemical, foam, water fog or water mist.
<b>Unsuitable Extinguishing Media</b>	Do not use water jet.
<b>Hazards from Combustion Products</b>	Under fire conditions this product may emit toxic and/or irritating fumes, smoke and gases including carbon monoxide, carbon dioxide, oxides of nitrogen and ammonia.
<b>Specific hazards arising from the chemical</b>	Combustible liquid. This product will burn if exposed to fire.
<b>Hazchem Code</b>	2X
<b>Decomposition Temp.</b>	Not available

Infosafe No™ LPT7L	Issue Date :March 2014	ISSUED by PARCHEMC
--------------------	------------------------	--------------------

Product Name : **FOSROC CONBEXTRA EPHT HARDENER**

Classified as hazardous

<b>Precautions in connection with Fire</b>	Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers. Fight fire from safe location. This product should be prevented from entering drains and watercourses.
--	---

## 6. Accidental release measures

<b>Personal precautions, protective equipment and emergency procedures</b>	Remove all sources of ignition. Evacuate all unprotected personnel. Do not allow contact with skin and eyes. Do not breathe mist/vapour. It is essential to wear self-contained breathing apparatus (S.C.B.A) and full personal protective equipment and clothing to prevent exposure. Avoid exposure to spillage by collecting the material using explosion proof vacuum and transfer into suitable labelled containers for subsequent recycling or disposal. Dispose of waste according to applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.
--	--

## 7. Handling and storage

<b>Precautions for Safe Handling</b>	Corrosive and combustible liquid. Attacks skin and eyes. May produce severe burns. Wear suitable protective clothing, gloves and eye/face protection when mixing and using. Use in designated areas with adequate ventilation. Avoid breathing in vapours, mist or fumes. Keep containers closed when not in use. Ensure a high level of personal hygiene is maintained when using this product, that is, always wash hands after handling, and before eating, drinking, smoking or using the toilet facilities. Do not use near ignition sources. Do not pressurise, cut, heat or weld containers as they may contain hazardous. Prevent the build up of mists or vapours in the work atmosphere. Keep containers sealed when not in use.
--------------------------------------	--

<b>Conditions for safe storage, including any incompatibilities</b>	Corrosive and combustible liquid for storage and handling purposes. Keep tightly closed in a dry, cool, well-ventilated area, out of direct sunlight. Provide a catch-tank in a bunded area. Avoid sparks, flames and other ignition sources. Store away from incompatible materials. Do NOT pressurise, cut, heat or weld containers as they may contain hazardous residues. Keep containers closed when not in use and securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Have appropriate fire extinguishers available in and near the storage area. Take precautions against static electricity discharges. Use proper grounding procedures. For information on the design of the store-room reference should be made to Australian Standard AS1940 - The storage and handling of flammable and combustible liquids and AS 3780-2008 The storage and handling of corrosive substances. Reference should also be made to all Local, State and Federal regulations.
---	---

<b>Storage Regulations</b>	Classified as a Class C1 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS1940.
----------------------------	---

## 8. Exposure controls/personal protection

<b>Occupational exposure limit values</b>	No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.
---	---

<b>Biological Limit Values</b>	No biological limits allocated.
--------------------------------	---------------------------------

<b>Appropriate engineering controls</b>	This substance is hazardous and should be used with a local exhaust ventilation system, drawing vapours away from workers' breathing zone. A flame-proof exhaust ventilation system is required. If the engineering controls are not sufficient to maintain concentrations of vapours/mists below the exposure standards, suitable respiratory protection must be worn. Refer to relevant regulations for further information concerning ventilation requirements. Refer to AS 1940 - The storage and handling of flammable and combustible liquids and AS/NZS 60079.10.1:2009 Explosive atmospheres - Classification of areas - Explosive gas atmospheres, for further information concerning ventilation requirements.
---	---

Infosafe No™ LPT7L	Issue Date : March 2014	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FOSROC CONBEXTRA EPHT HARDENER**

Classified as hazardous

<b>Respiratory Protection</b>	If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable organic vapour filter should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.
<b>Eye Protection</b>	Safety glasses with side shields, goggles or full-face shield as appropriate should be used. Final choice of appropriate eye/face protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.
<b>Hand Protection</b>	Wear gloves of impervious material such as butyl rubber, nitrile, neoprene. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.
<b>Body Protection</b>	Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

## 9. Physical and chemical properties

<b>Form</b>	liquid
<b>Appearance</b>	Colourless mobile liquid.
<b>Colour</b>	Colourless
<b>Odour</b>	Ammoniacal odour.
<b>Decomposition Temperature</b>	Not available
<b>Melting Point</b>	Not available
<b>Boiling Point</b>	320°C at 100 kPa
<b>Solubility in Water</b>	Negligible
<b>Specific Gravity</b>	0.96 at 23°C
<b>pH</b>	Not available
<b>Vapour Pressure</b>	<0.013kPa at 23°C
<b>Vapour Density (Air=1)</b>	7.4
<b>Evaporation Rate</b>	Not available
<b>Odour Threshold</b>	Not available
<b>Viscosity</b>	Not available
<b>Partition Coefficient: n-octanol/water</b>	Not available
<b>Flash Point</b>	>100°C (PMCC)
<b>Flammability</b>	Not flammable
<b>Auto-Ignition Temperature</b>	Not available
<b>Flammable Limits - Lower</b>	Not available
<b>Flammable Limits - Upper</b>	Not available

## 10. Stability and reactivity

<b>Reactivity</b>	Reacts with incompatibles
-------------------	---------------------------

Infosafe No™ LPT7L	Issue Date : March 2014	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FOSROC CONBEXTRA EPHT HARDENER**

Classified as hazardous

<b>Chemical Stability</b>	Stable under normal conditions of storage and handling.
<b>Conditions to Avoid</b>	Heat, flames and other sources of ignition.
<b>Incompatible Materials</b>	Strong oxidizing agents, peroxides, nitric acid, mineral acids. Sodium hypochlorite. Product slowly corrodes copper, aluminium, zinc and galvanised surfaces.
<b>Hazardous Decomposition Products</b>	Thermal decomposition may result in the release of toxic and/or irritating fumes and gases including carbon monoxide, carbon dioxide, oxides of nitrogen and ammonia. Nitrogen oxides can react with water vapours to form corrosive nitric acid.
<b>Possibility of hazardous reactions</b>	Reaction with peroxides may result in violent decomposition of peroxide which possibly creating an explosion.

## 11. Toxicological Information

<b>Toxicology Information</b>	The available toxicity data for material given below.
<b>Acute Toxicity - Oral</b>	LD50 (rat): 625mg/kg
<b>Acute Toxicity - Dermal</b>	LD50 (rabbit): 2110mg/kg
<b>Ingestion</b>	Harmful if swallowed. Ingestion of this product will cause nausea, vomiting, abdominal pain and chemical burns to the mouth, throat and stomach.
<b>Inhalation</b>	Inhalation of mist or vapour will result in respiratory irritation and possible harmful corrosive effects including burns, lesions of the nasal septum, pulmonary edema, and scarring of tissue.
<b>Skin</b>	May be harmful in contact with skin. Causes burns. Corrosive to the skin. Skin contact can cause redness, itching, irritation, severe pain and chemical burns with resultant tissue destruction. May cause an allergic skin reaction. Prolonged or repeated skin contact may cause dermatitis.
<b>Eye</b>	Causes serious eye damage. Eye contact will cause stinging, blurring, tearing, severe pain and possible burns, necrosis, permanent damage and blindness.
<b>Respiratory sensitisation</b>	Not expected to be a respiratory sensitiser.
<b>Skin Sensitisation</b>	May cause an allergic skin reaction The results of a test on guinea pigs showed this substance to be a weak skin sensitiser.
<b>Germ cell mutagenicity</b>	Not considered to be a mutagenic hazard.
<b>Carcinogenicity</b>	Not mutagenic in AMES test.
<b>Reproductive Toxicity</b>	Not considered to be a carcinogenic hazard.
<b>STOT-single exposure</b>	Not considered to be toxic to reproduction.
<b>STOT-repeated exposure</b>	May cause respiratory irritation.
<b>Aspiration Hazard</b>	Not expected to cause toxicity to a specific target organ.
<b>Other Information</b>	Not expected to be an aspiration hazard.
	Target organs: skin, eyes, liver, muscles

## 12. Ecological information

<b>Ecotoxicity</b>	Toxic to aquatic life with long lasting effects.
<b>Persistence and degradability</b>	Not inherently biodegradable
<b>Mobility</b>	Not available
<b>Bioaccumulative Potential</b>	Not available
<b>Other Adverse Effects</b>	Not available

Infosafe No™ LPT7L Issue Date : March 2014 ISSUED by PARCHEMC

Product Name : FOSROC CONBEXTRA EPHT HARDENER

Classified as hazardous

**Environmental Protection** Do not discharge this material into waterways, drains and sewers.**Acute Toxicity - Fish** LC50 (Golden orfe (Leuciscus idus)): 46-100mg/l/96h**Acute Toxicity - Daphnia** LC50 (Daphnia magna): 6.84mg/l/96h**Acute Toxicity - Algae** LC50 (Algae): 140-200mg/l/96h**13. Disposal considerations****Disposal Considerations** Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations.**14. Transport information****Transport Information** Road and Rail (Australia):  
This material is classified as Dangerous Goods Class 8 Corrosive Substances according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition).  
Class 8 Dangerous Goods are incompatible in a placard load with any of the following:  
- Class 1, Explosives  
- Division 4.3, Dangerous When Wet Substances  
- Division 5.1, Oxidising substances  
- Division 5.2, Organic Peroxides  
- Class 6, Toxic or Infectious Substances, if the Class 6 dangerous goods are cyanides and the Class 8 dangerous goods are acids  
- Class 7, Radioactive Substances  
and are incompatible with food and food packaging in any quantity.  
Strong acids must not be loaded in the same freight container or on the same vehicle with strong alkalis. Packing Group I and II acids and alkalis should be considered as strong.Marine Transport (IMO/IMDG):  
Classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.  
UN No.: 2735  
Proper Shipping Name: AMINES, LIQUID, CORROSIVE, N.O.S. (Cyclohexanamine, 4,4'-methylenebis-) MARINE POLLUTANT  
Class: 8  
Packaging Group: III  
EMS No.: F-A, S-B  
Special Provision(s): 223 274Air Transport (ICAO/IATA):  
Classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.  
UN No.: 2735  
Proper Shipping Name: AMINES, LIQUID, CORROSIVE, N.O.S. (Cyclohexanamine, 4,4'-methylenebis-)  
Class: 8  
Packaging Group: III  
Hazard Label: Corrosive  
Packaging Instructions (passenger & cargo): 852  
Packaging Instructions (cargo only): 856  
Special Provision(s): A3 A803**U.N. Number** 2735**UN proper shipping name** AMINES, LIQUID, CORROSIVE, N.O.S. - (Cyclohexanamine, 4,4'-methylenebis-)
