

Infosafe No™ LQ0UV	Issue Date : March 2012	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FAUXTEX MULTI MIX COLOUR HARDENER**

Classified as hazardous

## 1. Identification

<b>GHS Product Identifier</b>	FAUXTEX MULTI MIX COLOUR HARDENER
<b>Company Name</b>	Parchem Construction Supplies Pty Ltd (ABN 80 069 961 968)
<b>Address</b>	7 Lucca Road Wyong NSW 2259 Australia
<b>Telephone/Fax Number</b>	Tel: 02 4350 5000 Fax: 02 4351 2024
<b>Emergency phone number</b>	1800 638 556 (available 24/7)
<b>Recommended use of the chemical and restrictions on use</b>	Dry shake powder to colour and harden concrete
<b>Other Information</b>	<p>This MSDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since Parchem Construction Supplies Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace.</p> <p>If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company. Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.</p> <p>www.parchem.com.au</p>

## 2. Hazard Identification

<b>GHS classification of the substance/mixture</b>	<p>Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia</p> <p>Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)</p> <p>Skin Corrosion/irritation, Category 2</p> <p>Serious Eye Damage/irritation, Category 1</p> <p>Specific Target Organ Toxicity, Single Exposure Category 3 (respiratory irritation)</p>
<b>Signal Word (s)</b>	Danger
<b>Hazard Statement (s)</b>	<p>H315 Causes skin irritation.</p> <p>H318 Causes serious eye damage.</p> <p>H335 May cause respiratory irritation.</p>
<b>Pictogram (s)</b>	Corrosion, Exclamation mark

<b>Precautionary statement – Prevention</b>	<p>P102 Keep out of reach of children.</p> <p>P103 Read label before use.</p> <p>P104 Read Safety Data Sheet before use.</p> <p>P261 Avoid breathing dust/fume/gas/mist/vapours/spray.</p> <p>P264 Wash skin thoroughly after handling.</p> <p>P271 Use only outdoors or in a well-ventilated area.</p> <p>P280 Wear protective gloves/protective clothing/eye protection/face protection.</p>
<b>Precautionary statement – Response</b>	<p>P101 If medical advice is needed, have product container or label at hand.</p> <p>-This statement applies only where the substance is available to the general public.</p> <p>P312 Call a POISON CENTER/doctor if you feel unwell.</p>

Infosafe No™ LQ0UV Issue Date : March 2012 ISSUED by PARCHEMC

Product Name : **FAUXTEX MULTI MIX COLOUR HARDENER**

Classified as hazardous

**Precautionary statement – Storage**

**Precautionary statement – Disposal**

INHALATION  
P304+P340 IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing.

EYES  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P310 Immediately call a POISON CENTER or doctor/physician

SKIN  
P302+P352 IF ON SKIN: Wash with plenty of soap and water.  
P332+P313 If skin irritation occurs: Get medical advice/ attention  
P362 Take off contaminated clothing and wash before re-use.  
P405 Store locked up.  
P403+P233 Store in a well-ventilated place. Keep container tightly closed.  
P501 Dispose of contents/container to an approved waste disposal plant

### 3. Composition/information on ingredients

Ingredients	Name	CAS	Proportion
	Quartz	14808-60-7	50-70 %
	Portland cement	65997-15-1	30-60 %
	Titanium dioxide	13463-67-7	0-<5 %
	Calcium oxide	1305-78-8	0-<5 %
	Calcium sulphate	10101-41-4	0-<5 %
	Calcium carbonate	1317-65-3	0-<5 %
	Other ingredients determined not to be hazardous.		Balance

**Other Information** Contains <0.1% respirable free crystalline silica in the form of quartz.

### 4. First-aid measures

**Inhalation** If inhaled, remove from contaminated area. Apply artificial respiration if not breathing. Seek medical attention.

**Ingestion** Do not induce vomiting. Wash out mouth with water. Seek medical attention.

**Skin** Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. Seek medical attention.

**Eye contact** If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.

**First Aid Facilities** Eye wash, safety shower and normal washroom facilities.

**Advice to Doctor** Treat symptomatically.

**Other Information** For advice, contact a Poisons Information Centre (Phone eg Australia 131 126; New Zealand 0800 764 766) or a doctor (at once).

### 5. Fire-fighting measures

**Suitable extinguishing media** Use appropriate fire extinguisher for surrounding environment.

**Hazards from Combustion Products** This product is non combustible.

**Specific hazards arising from the chemical** The product is not combustible.

**Precautions in connection with Fire** Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) and full protective clothing to prevent exposure to vapours, fumes, dust or products of combustion.

### 6. Accidental release measures

Infosafe No™ LQ0UV

Issue Date : March 2012

ISSUED by PARCHEMC

Product Name : **FAUXTEX MULTI MIX COLOUR HARDENER**

Classified as hazardous

**Emergency Procedures** Evacuate all unprotected personnel. Wear sufficient respiratory protection and full protective clothing to prevent exposure. Sweep up material avoiding dust generation or dampen spilled material with water to avoid airborne dust, then transfer material to a suitable container. Wash surfaces well with soap and water. Seal all wastes in labelled plastic containers for subsequent recycling or disposal. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

## 7. Handling and storage

**Precautions for Safe Handling** Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of dust in the work atmosphere. Avoid inhalation of dust, and skin or eye contact. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

**Conditions for safe storage, including any incompatibilities** Store in a cool, dry, well-ventilated area, out of direct sunlight and moisture. Store in labelled, corrosion-resistant containers. Keep containers tightly closed. Store away from incompatible materials.

## 8. Exposure controls/personal protection

**Occupational exposure limit values** No exposure value assigned for this specific material by Safework, Australia. However, over-exposure to any chemical may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels. The available exposure limits for ingredients are listed below:

Safework, Australia Exposure Standards:

Substance	TWA		STEL		NOTICES
	ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>	
Portland cement	-	10	-	-	-
Titanium dioxide	-	10	-	-	-
Calcium oxide	-	2	-	-	-
Calcium sulphate	-	10	-	-	-
Calcium carbonate	-	10	-	-	-
Quartz	-	0.1	-	-	-
Dust (inspirable fraction)	-	10	-	-	-

TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.

STEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

**Biological Limit Values** No biological limit allocated.

**Appropriate engineering controls** Good ventilation adequate to maintain the concentration below exposure standards is required. The use of a local exhaust ventilation system (drawing dusts away from workers breathing zone) is recommended. If the engineering controls are not sufficient to maintain concentrations of particulates below the exposure standards, suitable respiratory protection must be worn.

**Respiratory Protection** If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable particulate filter should be used. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

**Eye Protection** Safety glasses with side shields or chemical goggles should be worn. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

**Hand Protection** Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

**Body Protection** Suitable protective workwear should be worn when working with this material,

Product Name : **FAUXTEX MULTI MIX COLOUR HARDENER**

Classified as hazardous

e.g. cotton overalls buttoned at neck and wrist.

## 9. Physical and chemical properties

<b>Appearance</b>	Coloured powder
<b>Melting Point</b>	Not available
<b>Boiling Point</b>	Not applicable
<b>Solubility in Water</b>	Not available
<b>Specific Gravity</b>	1.3 @ 23°C
<b>pH</b>	Not available
<b>Vapour Pressure</b>	Not applicable
<b>Vapour Density (Air=1)</b>	Not available
<b>Odour Threshold</b>	Not available
<b>Viscosity</b>	Not applicable
<b>Partition Coefficient: n-octanol/water</b>	Not available
<b>Flash Point</b>	Not applicable
<b>Flammability</b>	Non-combustible solid.
<b>Auto-Ignition Temperature</b>	Not applicable
<b>Flammable Limits - Lower</b>	Not applicable
<b>Flammable Limits - Upper</b>	Not applicable

## 10. Stability and reactivity

<b>Chemical Stability</b>	Stable under normal conditions of storage and handling
<b>Conditions to Avoid</b>	Keep free of moisture
<b>Incompatible Materials</b>	Not available
<b>Hazardous Decomposition Products</b>	Thermal decomposition may result in the release of toxic and/or irritating fumes.
<b>Hazardous Polymerization</b>	Will not occur.

## 11. Toxicological Information

<b>Toxicology Information</b>	No toxicity data is available for this product.
<b>Inhalation</b>	Irritating to respiratory system. Inhalation of dust will cause irritation of the nose, throat and respiratory system. Breathing of dust may cause shortness of breath, and aggravate asthma and inflammatory or fibrotic pulmonary disease. Inhalation may cause delayed lung disease. Acute aspiration may cause drying and irritation of the respiratory tract, cough, dyspnea, sneezing, vomiting, cyanosis, and pulmonary edema which may be delayed by up to several hours.
<b>Ingestion</b>	Ingestion of this product may irritate the gastric tract causing nausea and vomiting.
<b>Skin</b>	Irritating to skin resulting in redness and itching. Repeated exposure may cause skin dryness and cracking.
<b>Eye</b>	Causes eye damage. Eye contact will cause stinging, blurring, tearing, severe pain and possible burns, necrosis, permanent damage and blindness.
<b>Reproductive Toxicity</b>	Not considered to be toxic to reproduction.
<b>Carcinogenicity</b>	This product contains crystalline silica (quartz). However free respirable

Infosafe No™ LQ0UV	Issue Date : March 2012	ISSUED by PARCHEMC
--------------------	-------------------------	--------------------

Product Name : **FAUXTEX MULTI MIX COLOUR HARDENER**

Classified as hazardous

<b>Skin Sensitisation</b>	crystalline silica is estimated to be less than 0.1%. Crystalline silica has been classified by International Agency for Research on Cancer (IARC) as carcinogenic to humans by inhalation (Group 1). Not expected to be a skin sensitiser.
<b>Aspiration Hazard</b>	Not expected to be an aspiration hazard.
<b>STOT-single exposure</b>	May cause respiratory irritation.
<b>STOT-repeated exposure</b>	This product contains crystalline silica (quartz). However free respirable crystalline silica is estimated to be less than 0.1%. Respirable crystalline silica (particle size smaller than 7 micrometres), is regarded as a danger to health by prolonged exposure through inhalation. Repeated, prolonged or concentrated inhalation of respirable crystalline silica dust may lead to silicosis, a serious lung disease. The onset of silicosis is usually slow and lung damage may occur even when no symptoms or signs of ill-health have occurred. Silicosis can develop to a more serious degree even after exposure has ceased, and may also lead to other diseases including heart disease and scleroderma.
<b>Germ cell mutagenicity</b>	Not considered to be a mutagenic hazard.
<b>Respiratory sensitisation</b>	Not expected to be a respiratory sensitiser.

## 12. Ecological information

<b>Ecotoxicity</b>	Not available
<b>Persistence and degradability</b>	Not available
<b>Mobility</b>	Not available
<b>Bioaccumulative Potential</b>	Not available
<b>Environmental Protection</b>	Avoid contaminating waterways.

## 13. Disposal considerations

<b>Disposal Considerations</b>	Dispose of waste according to applicable local and national regulations.
--------------------------------	--

## 14. Transport information

<b>Transport Information</b>	Road and Rail Transport (ADG Code): Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code) (7th edition).  Marine Transport (IMO/IMDG): Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.  Air Transport (ICAO/IATA): Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
<b>IMDG Marine pollutant</b>	No

## 15. Regulatory information

<b>Regulatory Information</b>	Classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
<b>Poisons Schedule</b>	Not Scheduled
