

Sacrificial formwork mesh – stop end system

Uses

- Construction joints and stop ends
- Joints in slabs
- Vertical joints in walls

Advantages

- Provides a high degree of control over the quality of an interfacing scabbled joint
- Faster and easier to use than timber formwork and chemical retarding agents used on concrete to create interlocking surfaces
- Can be installed before reinforcement with bars pushed through the mesh at a later stage
- Material is easy to cut, bend and shape into and around difficult profiles such as toggle joints
- Can be used vertically or horizontally, and curved for such applications as water retaining structures
- Enables pour to be visually monitored, thus reducing risk of voids or honey combing within concrete
- No need to clean, reface or oil as would happen with traditional timber formwork

Description

Super Rib is a machine made unique mesh galvanised steel sheet stiffened by roll-formed ribs, that retains poured concrete and provides a perfect bond and shear key to the follow-on pour similar to a fully scabbled joint.

Super Rib becomes a permanent formwork thus there is no stripping required or preparation of the joint surface for the next pour.

Properties

Weight:	3.39 kg/m ²
Thickness:	0.40 mm
Sheet width:	450 mm
Min radius:	(curved along length) 500 mm

Supply

Product	Sheet size
Super Rib	450 x 2500 mm

Super Rib

Important notice

A Safety Data Sheet (SDS) and Technical Data Sheet (TDS) are available from the Parchem website or upon request from the nearest Parchem sales office. Read the SDS and TDS carefully prior to use as application or performance data may change from time to time. In emergency, contact any Poisons Information Centre (phone 13 11 26 within Australia) or a doctor for advice.

Product disclaimer

This Technical Data Sheet (TDS) summarises our best knowledge of the product, including how to use and apply the product based on the information available at the time. You should read this TDS carefully and consider the information in the context of how the product will be used, including in conjunction with any other product and the type of surfaces to, and the manner in which, the product will be applied. Our responsibility for products sold is subject to our standard terms and conditions of sale. Parchem does not accept any liability either directly or indirectly for any losses suffered in connection with the use or application of the product whether or not in accordance with any advice, specification, recommendation or information given by it.
